**Prizes:**

**1<sup>st</sup> winner:**

The Founder Institute is the world's largest entrepreneur training and startup launch program, helping aspiring founders across the globe build enduring technology companies.

In the Founder Institute's four-month, part-time program, promising startup entrepreneurs "learn by doing" and launch a company through structured training courses, practical business-building assignments, and expert feedback. Plus, aspiring founders are not required to quit their day job to participate, so they can test their business ideas and start building a company without putting their livelihood at risk.

Based in Silicon Valley and with chapters across 100 cities and 50 countries, the Founder Institute has helped launch over 1,550 companies, which have created over 15,000+ new jobs. The company's mission is to "Globalize Silicon Valley" and build sustainable startup ecosystems that will create one million new jobs worldwide.

The Founder Institute was founded in 2009 by serial entrepreneur Adeo Ressi, and Jonathan Greechan. It is operated out of Palo Alto, California.
